Zaireen Akhzar
Front-end Developer

About Me

I'm a front-end web developer with nearly five years of experience in building, debugging, and maintaining websites. I specialize in frameworks like Vue and Angular and I am proficient in HTML, CSS, JavaScript, TypeScript and C#. Additionally, I have expertise in Bootstrap, and Tailwind, enabling me to create dynamic, responsive, and visually engaging web applications.

Experiences

Resource Data Management Asia Sdn Bhd　　**Nov 2023 - Present**
FRONT-END DEVELOPER

- Write efficient, scalable code using Angular and TypeScript to build dynamic and responsive applications.
- Using framework Angular version 17 and 19
- Implement RESTful APIs to enable seamless communication and data integration between front-end and back-end systems.
- Develop 3D interactive applications with Babylon.js and utilize OpenStreetMap (OSM) for GIS-based development.
- Create and deploy new features, update and debug existing code, and ensure reliable system maintenance.
- Collaborate closely with UI/UX teams on interface design and work with back-end teams for seamless integration and robust functionality.
- Actively involved in the UI/UX design process, including the creation of interactive prototypes and detailed wireframes to visualize user flows, enhance usability, and align design with user and business requirements.

Synapse Innovation Sdn. Bhd.　　**Sept 2020 – Sept 2023 (3 years)**
FRONT-END DEVELOPER

- Develop and maintain code using .NET, Vue, C#, and JavaScript to create powerful and intuitive web applications.
- Implement RESTful APIs to facilitate efficient data exchange and seamless integration between front-end and back-end systems.
- Collaborate with UI/UX designers to craft user-centered interfaces and work closely with back-end teams to ensure smooth integration and robust functionality.
- Design and deploy new features, perform code updates and debugging, and oversee system maintenance for optimized performance and reliability.

Universiti Teknologi Malaysia, Johor　　**Aug 2019 - Jan 2020 (6 months)**
INTERNSHIP

- Gathered requirements from clients to create persona.
- Designing prototype and wireframe.
- Involved in front-end development.

Education

Aug 2016 - Jan 2020
UITM
Bachelor's Degree of Computer Science (Hons.)
CGPA 3.35

Sep 2015 - Apr 2016
KMJ
Matriculation Accounting Program
CGPA: 3.40

Skills

- **Framework**: Vue.js, Angular (v17 & v19), .NET
- **Markup & Web Standards**: HTML5
- **Language**: JavaScript, TypeScript, C#
- **Styling**: CSS3, SCSS/SASS, Bootstrap, Tailwind CSS
- **Creative Tools**: Blender, Unity
- **UI/UX Design**: Figma, wireframing
- **Source Control:** Github, Gitlab
- **Tools & Utilities:** Postman, Filezilla, VSCode, Microsoft Visual Studio

Personal

- Thrive under pressure, consistently meeting tight deadlines.
- Excel both independently and in team settings, with minimal supervision.
- Eager to learn and expand knowledge continuously.
- Demonstrate strong communication and time management skills.
