Zaireen Akhzar

Front-end Developer

📞 011-65504129 ✉ zaireenakhzar@gmail.com 🌐 https://zaireenakhzar.my.canva.site 📍 Cyberjaya, Selangor

About Me

I'm a front-end web developer with nearly four years of experience in building, debugging, and maintaining websites. I specialize in frameworks like Vue and Angular and I am proficient in HTML, CSS, JavaScript, TypeScript and C#. Additionally, I have expertise in Bootstrap, Bootstrap Vue, PrimeNg, and Nebular, enabling me to create dynamic, responsive, and visually engaging web applications.

Experiences

Nov 2023 - Present

Resource Data Management Asia Sdn Bhd

FRONT-END DEVELOPER

- Write efficient, scalable code using Angular and TypeScript to build dynamic and responsive applications.
- Implement RESTful APIs to enable seamless communication and data integration between front-end and back-end systems.
- Develop 3D interactive applications with Babylon.js and utilize OpenStreetMap (OSM) for GIS-based development.
- Create and deploy new features, update and debug existing code, and ensure reliable system maintenance.
- Collaborate closely with UI/UX teams on interface design and work with back-end teams for seamless integration and robust functionality.

Sept 2020 – Sept 2023 (3 years)

Synapse Innovation Sdn. Bhd.

FRONT-END DEVELOPER

- Develop and maintain code using .NET, Vue, C#, and JavaScript to create powerful and intuitive web applications.
- Implement RESTful APIs to facilitate efficient data exchange and seamless integration between front-end and back-end systems.
- Collaborate with UI/UX designers to craft user-centered interfaces and work closely with back-end teams to ensure smooth integration and robust functionality.
- Design and deploy new features, perform code updates and debugging, and oversee system maintenance for optimized performance and reliability.
